INTEROFFICE MEMORANDUM

SUBJECT: PDP-16

DATE: July 9, 1971

TO: Brad Vachon

FROM: Ken Olsen

Cc: Nick Mazzaresse  
Stan Olsen

DEPARTMENT: Administration

Will you give me a telephone call sometime and give me your reaction to the PDP-16. If the pitch presented by the PDP-16 group is valid, you should use 16's for many of your special engineering projects. If you have qualms about their usefulness, I would love to hear it because it might mean some qualification on the market use of the 16.
