

H

Hardware, mounting 2-1

I

I/O distribution panel
available space 3-8
cable installation 3-8,
3-11

I/O insert panel 3-8

Indicator

green 4-4

red 4-4

sequence 4-9, 4-10, 4-12,
4-14

table 4-4

Installation

controller cable 2-6, 2-7,
2-8, 2-9, 2-10

controller module 2-6,
2-7, 2-8

grant continuity card 2-3

I/O distribution panel
2-10

Interrupt vector 1-8

J

J1 connector signal and
number 2-6, 4-5, 5-8, 5-9

L

LED, see also indicators
front panel 5-7

Load/Unload switch, using
4-12, 4-13, 4-14 5-6

M

Mass storage control protocol
5-5

O

Operating 4-1

features 5-1, 5-5

Options, controller kit 6-1

P

PDP-11 Systems, installing on
2-1 through 2-13

Physical features 5-1

Placement guidelines

Power cable 2-12, 2-13, 6-5

Power supply 2-7, 5-5

FRU procedure 6-6

Power switch 2-13

Q

Quick release latch 6-4

R

Rackmount 1-1

Rear panel 4-5, 5-8

Removing a tape

Revision level switch 5-3

S

Specifications 2-1, 3-2, B-1,
B-2

Starting address 5-3

Static 1-1, 3-2

wrist strap 3-2

Switch settings

Load/unload 4-3

on/off 4-3

revision level 3-1, 5-12

unit number 3-1

voltage 4-5

SYSGEN software program 2-14

T

Tape Cartridge 1-5, 4-6, 4-7

inserting 4-6, 4-9, 4-10,
4-11

labeling 4-7

write-protect 4-7

Tape drive 1-1, 2-1, 4-6

indicator lights 4-4

troubleshooting 5-13
