

Factory Installed Software Information Sheet

The following software has been loaded onto disks in this system (serial number: AY70702076):

- Digital UNIX V4.0B (564) R02 All Mandatory and Optional Subsets
- Alternative Development Environment Toolkit
- Development Enhancements for Digital UNIX Systems Software Development
- Multimedia Services V2.2 for Digital UNIX (Runtime Subsets and Drivers)
- NetWorker SingleServer
- Performance Manager
- Run Time Libraries: DEC Ada, DEC C++, DEC COBOL, DEC FORTRAN, and DEC Pascal
- POLYCENTER Advanced File System Utilities V4.0-2
- Open3D V4.2 for Digital UNIX (if supported by hardware)
- Communique! Starter: shared multipage whiteboard, chat tool & more

This software can be used only with the appropriate software licenses and associated Product Authorization Key (PAK). Failure to adhere to this agreement will result in an infringement of Digital's software licensing and control procedures. After the kernel build process has completed and the system has rebooted to the CDE login menu, login to your system and register your PAKs using the License Management Facility (LMF) tool, lmf(8), and then reboot your system.

The following information shows the configuration of your Digital UNIX system:

File System:	swap	spare	root	usr
Partition:	rz0b	rz0i	rz0a	rz0g
Size (Mb):	638	216	128	1024
Type:	swap	unused	ufs	ufs

Additional Information:

- Please examine the file `/var/adm/smlogs/it.log`. It will show you what subsets were configured into your system and may contain instructions and informational messages regarding the use of these subsets.
- If you would like to remove any pre-installed software subsets to create space on the hard disk or add other software products to your system please consult the on-line version of the *Digital UNIX System Administration* manual.
- Invoke Netscape via the command `/usr/bin/X11/netscape` to access the menu for online documentation, including: Digital Unix Release Notes, System Administration, and Network Configuration. From netscape, enter the location:

file:/usr/share/doclib/online/DOCUMENTATION/HTML/Digital_UNIX_Bookshelf.html

- Additional product information may be obtained from the following sources:
 - Multimedia Services Release Notes: `/usr/opt/MME*`
 - Digital OPEN3D Release Notes: `/usr/lib/OPEN3D`
 - Communique! Starter Notes: `/var/opt/insoft/c401/README`
