

Kit Names: SYSLOGD-AXPVMS-04-FEB-2018.ZIPEXE,  
SYSLOGD-I64VMS-04-FEB-2018.ZIPEXE

The self-extracting zip files contain beta test release files of the Linux/Unix SYSLOGD utility for VSI OpenVMS Alpha and Integrity releases.

The file SYSLOGD-OPENVMS-04-FEB-2018.PDF contained in the zip archive describes the basic steps for getting started with SYSLOGD on VMS.

There is no PCSI installable kit included only the scripts, configuration files and executables to beta test SYSLOGD.
