TOPS–20 SOFTWARE NOTEBOOKS

QT018–KZ (Notebook Set)
QT018–3Z (Update Service)

The TOPS–20 Software Notebooks contain all user documentation pertaining to the TOPS–20 operating system.

One TOPS–20 Software Notebook set, including one year of updates to that set, is included with each basic TOPS–20 software package. Customers can order additional Notebook sets and renew their update service by contracting their sales representative. The Software Notebook set, including one year of updates, has the order number QT018–KZ. The update service, to be renewed annually after the first year, has the order number QT018–3Z.

INDEX OF MANUALS

UPDATE NOTICE

TOPS–20
SOFTWARE NOTEBOOKS
UPDATE 24
QTN03–WZ

June 1985

NOTE

The order number for the notebook updates has changed. Instead of using a number in the form AD–J020A–xx, we are now using a number in the form QTNxx–WZ, where xx is a sequential number starting with 01. TOPS–20 Notebook Update 22 (dated September 1984) was the first update using the new numbering scheme. Update 23 (dated December 1984) was the second. Please note that the procedures for subscribing to the Notebook Update Service have not changed.

Contents of the Update

1. FORTRAN V10 Documentation

2. LINK V6 Documentation

3. DECnet/SNA TOPS–20 V1 Documentation

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

Do not incorporate this update into your TOPS–20 Software Notebooks if your set is not current with Update 23 (QTN02–WZ), dated December 1984.

REFERENCE GUIDE

This update includes the following reference guide:

1. TOPS–10/TOPS–20 FORTRAN Pocket Guide (AA–P529B–TK)

NOTEBOOK 5

1. Replace the spine insert for Notebook 5 with the revised one included in this update.

2. Replace the existing LINK Reference Manual (and its update) with the revised one (AA–4183D–TM) included in this update.

3. Remove and discard the TOPS–20AN Monitor Calls User's Guide, its divider, and its two updates.

NOTE

> This book documents the old NCP protocol, which is no longer used by the ARPANET community. If you have a need for this material, you may wish to retain this book elsewhere.

NOTEBOOK 16

1. Replace the spine insert for Notebook 16 with the revised one included in this update.

2. Replace the existing FORTRAN Language Manual with the revised one (AA–N383B–TK) included in this update.

3. Replace the existing FORTRAN Installation Guide with the revised one (AA–P344B–TK) included in this update.

4. Remove and discard the FORTRAN–10/20/VAX–11 FORTRAN Compatibility Manual and its associated divider. With Version 10 of FORTRAN, this manual has been revised and reformatted and is part of the Integration Documentation Kit (QT650–GZ).

NEW BINDER (NOTEBOOK 24)

1. Insert the new spine for Notebook 24 and the binder cover insert into the new binder.

2. Insert the following manuals (and their associated dividers) into Notebook 24 in the order specified. These manuals and dividers are included in this update.

   DECnet/SNA TOPS–20 Gateway Management Guide (AA–CH20A–TM)
   DECnet/SNA TOPS–20 Remote Job Entry User's and Operator's Guide (AA–CH16A–TM)
   DECnet/SNA TOPS–20 Application Interface Programmer's Guide (AA–CH45A–TM)

NOTEBOOK 1

1. Replace the spine insert for Notebook 1 with the revised one included in this update.

2. Remove and discard the TOPS–20AN User's Guide, its divider, and its update.

NOTE

This book documents the old NCP protocol, which is no longer used by the ARPANET community. If you have a need for this material, you may wish to retain this book elsewhere.

3. Replace the existing Master Table of Contents with the revised one included in this update.

4. Insert this update notice immediately after the divider labeled Update Notices.

KEEP THIS UPDATE NOTICE IN YOUR MANUAL TO MAINTAIN AN UP-TO-DATE RECORD OF CHANGES.

TYPE AND IDENTIFICATION OF DOCUMENTATION CHANGES.
Five types of changes are used to update documents contained in the TOPS–20 software manuals. Change symbols and notations are used to specify where, when, and why alterations were made to each update page. The five types of update changes and the manner in which each is identified are described in the following table.

The Following Symbols and/or Notations

1. Change bar in outside margin; version number and change date printed at bottom of page.

2. Change bar in outside margin; change date printed at bottom of page.

3. Change date printed at bottom of page.

4. Bullet (●) in outside margin; version number and change date printed at bottom of page.

5. Bullet (●) in outside margin; change date printed at bottom of page.

Identify the Following Types of Update Changes

1. Changes were required by a new version of the software being described.

2. Changes were required to either clarify or correct the existing material.

3. Changes were made for editorial purposes but use of the software is not affected.

4. Data was deleted to comply with a new version of the software being described.

5. Data was deleted to either clarify or correct the existing material.

UPDATE NOTICE

TOPS--20
SOFTWARE NOTEBOOKS
UPDATE 23
QTN02–WZ

January 1985

NOTE

The order number for the notebook updates has changed. Instead of using a number in the form AD–J020A–xx, we are now using a number in the form QTNxx–WZ, where xx is a sequential number starting with 01. TOPS–20 Notebook Update 22 (dated September 1984) was the first update using the new numbering scheme. This update (Update 23, QTN02–WZ) is the second. Please note that the procedures for subscribing to the Notebook Update Service have not changed.

Contents of the Update

1. DIL V2 Documentation

2. EDT–20 V1 Documentation

3. BLISS V4.1 Documentation

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

Do not incorporate this update into your TOPS–20 Software Notebooks if your set is not current with Update AD–J020A–22 (QTN01–WZ), dated September 1984.

REFERENCE GUIDE

This update includes the following new quick reference guide:

1. EDT Quick Reference Guide (AA–DF20A–TK)

NOTEBOOK 18

1. Replace the existing DIL User Reference Manual with the revised one (AA–M581B–TK) included in this update.

NOTEBOOK 19

1. Replace the existing BLISS–36 Installation Notes manual with the revised one (AA–J937E–TK) included in this update.

NEW BINDER (NOTEBOOK 23)

1. Insert the new spine for Notebook 23 and the binder cover insert into the new binder.
2. Insert the following manuals (and their associated dividers) in Notebook 23 in the order specified. These manuals and dividers are included in this update.

   EDT–20 Primer (AA–CH25A–TM)
   EDT–20 Reference Manual (AA–CH24A–TM)

NOTEBOOK 1

1. Replace the existing Master Table of Contents with the revised one included in this update.
2. Insert this update notice immediately after the divider labeled Update Notices.

UPDATE NOTICE

TOPS–20
SOFTWARE NOTEBOOKS
AD–J020A–22

September 1984

Contents of the Update

1. DATATRIEVE–20 V1 Documentation

2. RSX–20F V15-06 Documentation

3. TRAFFIC–20 V4 Documentation

The instructions for inserting this update start on the following page.

INSTRUCTIONS
AD–J020A–22

READ FIRST BEFORE PROCEEDING

Do not incorporate this update into your TOPS–20 Software Notebooks if your set is not current with Update AD–J020A–21, dated August 1984.

NOTEBOOK 11

1. Replace the existing RSX–20F System Reference Manual with the revised one (AA–BS94A–TK) included in this update.

NOTEBOOK 13

1. Insert the following manuals (and their associated dividers) in Notebook 13 in the order specified. The manuals and dividers are included in this update.

   a. Introduction to DATATRIEVE–20 (AA–AG90A–TM).
   b. DATATRIEVE–20 User's Guide (AA–AG91A–TM).
   c. DATATRIEVE–20 Reference Manual (AA–AG92A–TM).
   d. DATATRIEVE–20 Guide to Using Graphics (AA–AG96A–TM).
   e. DATATRIEVE–20 Guide to Writing Reports (AA–AG95A–TM).

NOTEBOOK 14

1. Replace the existing TRAFFIC–20 Programmer's Manual with the revised one (AA–H296B–TM) included in this update.

NOTEBOOK 1

1. Replace the existing Master Table of Contents with the revised one included in this update.
2. Insert this update notice immediately after the divider labeled Update Notices.

September 1984

UPDATE NOTICE

TOPS-20
SOFTWARE NOTEBOOKS
AD-J020A-21

August 1984

Contents of the Update

1. DBMS-20 V6.1 Documentation

2. Network Compatibility Binder

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

Do not incorporate this update into your TOPS–20 Software Notebooks if your set is not current with Update AD–J020A–20, dated May 1984.

REFERENCE CARDS

This update includes the following new or revised reference cards:

1. DBMS–20 DML Programmer's Reference Card (AV–H230B–TM)
2. DBMS–20 DDL Programmer's Reference Card (AV–J879B–TM)
3. DBMS–20 Utilities Reference Card (AV–Z784A–TM)
4. DBMS–20 Poster (AV–Z783A–TM)
5. Network Compatibility binder, which includes the Network File Transfer Guide (AV–Z785A–TK)

NOTEBOOK 10

1. Replace the spine insert for Notebook 10 with the revised one included in this update.
2. Remove and discard the TOPS–20 DN200 Remote Station Guide and its associated divider. This product is no longer supported on TOPS–20.

NEW BINDERS (NOTEBOOKS 21 and 22)

1. Insert the new spine and a binder cover insert for Notebook 21 into one of the new binders and the new spine and a binder cover insert for Notebook 22 into the other new binder.

NOTEBOOK 13

To incorporate the DBMS–20 Version 6.1 documentation into your set, first you will move the appropriate manuals from Notebook 13 to the new Notebooks 21 and 22. Second, you will be instructed to update the manuals after you have moved all of them to the new notebooks. Please follow these instructions carefully.

1. Remove the entire contents of Notebook 13. Do not discard any material unless explicitly instructed in subsequent steps.
2. Insert into Notebook 21, the following items from Notebook 13:

   a. Divider labeled DBMS–20 Documentation Directory.
   b. Divider and manual titled DBMS–20 User's Guide.
   c. Divider and manual titled DBMS–20 DDL Reference Manual.
   d. Divider labeled DBMS–20 Installation Guide.

3. Insert into Notebook 22, the following items from Notebook 13:

   a. Divider and manual titled DBMS–20 DML Reference Manual.
   b. Divider and manual titled DBMS–20 Utilities Manual.
   c. Divider labeled DBMS–20 Error Message Manual.

4. Discard the remaining items of Notebook 13. These are:

   a. The manuals titled DBMS–20 Documentation Directory, DBMS–20 Release Notes, DBMS–20 Error Message Manual, and DBMS–20 Installation Guide.
   b. The divider titled DBMS–20 Release Notes.

5. Replace the spine insert for Notebook 13 with the revised one included in this update.
6. Place the empty notebook back into the set. This notebook is being held in reserve for the future DATATRIEVE–20 documentation.

NOTEBOOK 21

1. Insert the revised DBMS-20 Documentation Directory (AA-J876B-TM) immediately after the divider of the same name.
2. Using the Update Notice to the DBMS-20 User's Guide as a guide, replace the appropriate pages in the manual (AA-H229A-TM) with the ones included in this update.
3. Using the Update Notice to the DBMS-20 DDL Reference Manual, replace the appropriate pages in the manual (AA-H231A-TM) with the ones included in this update.
4. Insert the revised DBMS-20 Installation Guide (AA-J875B-TM) immediately after the divider of the same name.

NOTEBOOK 22

1. Using the Update Notice to the DBMS-20 DML Reference Manual as a guide, replace the appropriate pages in the manual (AA-H232A-TM) with the ones included in this update.
2. Using the Update Notice to the DBMS-20 Utilities Manual as a guide, replace the appropriate pages in the manual (AA-H228A-TM) with the ones included in this update.
3. Insert the revised DBMS-20 DBCS Error Message Manual (AA-J878B-TM) immediately after the divider labeled DBMS-20 Error Message Manual.

NOTEBOOK 1

1. Replace the existing Master Table of Contents with the revised one included in this update.
2. Insert this update notice immediately after the divider labeled Update Notices.

UPDATE NOTICE

TOPS--20
SOFTWARE NOTEBOOKS
AD--J020A--20

May 1984

Contents of the Update

1. TOPS-20 COBOL V13 Documentation

2. TOPS-20 RMS V2 Documentation

3. TOPS-20 SORT/MERGE V5 Documentation

4. BLISS--36 V4 Documentation

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

Do not incorporate this update into your TOPS–20 Software Notebooks if your set is not current with Update AD–J020A–19, dated December 1983.

REFERENCE CARDS

This update includes the following new or revised reference cards:

1. TOPS–20 COBOL Language Reference Card (AV–N421A–TM)
2. BLISS Pocket Guide (AV–AT45A–TK)

NOTEBOOK 7

1. Replace the existing title page for the Introduction to DECnet manual with the revised one included in this update. The order number of the book has been changed to AA–AV51A–TK.

NOTEBOOK 12

1. Replace the existing TOPS–20 Monitor Table Descriptions with the revised document included in this update. The revised document reflects TOPS–20 Version 5.1.

NOTEBOOK 14

1. Replace the spine insert for Notebook 14 with the revised one included in this update.
2. Remove and discard the COGO–10/20 User's Manual and the COGO–10/20 Installation Guide (and their associated dividers). This product is no longer supported on TOPS–20.
3. Insert the following manuals (and their associated dividers) immediately after the IQL User's Guide. These manuals and dividers are included in this update:

   TOPS–20 RMS User's Guide (AA–N422A–TM)
   TOPS–20 SORT/MERGE User's Guide (AA–M064B–TM)

4. Remove and discard the PCS–10/20 Reference Manual and the PCS–10/20 Installation Guide (and their associated dividers). This product is no longer supported on TOPS–20.

NOTEBOOK 17

1. Replace the spine insert for Notebook 17 with the revised one included in this update.
2. Remove and discard the entire contents of Notebook 17. The TOPS–20 COBOL–68 product is no longer available on TOPS–20.
3. Insert the following manuals (and their associated dividers) into Notebook 17. These manuals and dividers are included in this update:

   TOPS–20 COBOL Language Manual (AA–N420A–TM)
   TOPS–20 COBOL Installation Guide (AA–N429A–TM)

NOTEBOOK 18

1. Using the Update Notice to the DIL User Reference Manual as a guide, replace the appropriate pages in the manual (AA–M581A–TM) with the ones included in this update.

NOTEBOOK 19

1. Replace the existing BLISS–36 User's Guide with the revised one (AA–H712D–TK) included in this update.
2. Using the Update Notice to the BLISS Language Guide as a guide, replace the appropriate pages in the manual (AA–H275C–TK) with the ones included in this update.
3. Replace the existing BLISS–36 Installation Notes with the revised one (AA–J937D–TK) included in this update.

NOTEBOOK 1

1. Replace the existing title page with the revised one included in this update.
2. Replace the existing Master Table of Contents with the revised one included in this update.
3. Insert this update notice immediately after the divider labeled Update Notices.

</div>

READ FIRST BEFORE PROCEEDING

Do not incorporate this update into your TOPS–20 Software Notebooks if your set is not current with Update AD–J020A–18, dated August 1983.

REFERENCE CARDS AND GUIDES

This update includes the following new reference cards and guides:

1. DIGITAL Networking Pocket Guide (AV–N956A–TK)
2. TOPS–20 PASCAL Reference Card (AV–L316A–TK)

NOTEBOOK 7

1. Using the Update Notice to the DECnet–20 System Manager's and Operator's Guide as a guide, replace the appropriate pages in the manual (AA–J678A–TM) with the ones included in this update.

NOTEBOOK 8

1. Replace the spine insert for Notebook 8 with the revised one included in this update.
2. Insert the following manuals (and their associated dividers) immediately before the FTS–20 manual. These manuals and dividers are included in this update:

   TOPS–20 PSI User's Guide (AA–J533A–TM)
   TOPS–20 PSI Installation Guide (AA–N819A–TM)

3. Remove and set aside the following manuals (and their associated dividers). These manuals will be placed in Notebook 9.

   TOPS–10/20 UETP Procedures Reference Manual (AA–D606B–TK)
   TOPS–10/20 Autopatch Procedures Reference Manual (AA–H729A–TK)

NOTEBOOK 9

1. Replace the spine insert for Notebook 9 with the revised one included in this update.
2. Insert the UETP and the Autopatch manuals (and their dividers) immediately after the TOPS–20 KS/KL Model A Installation Guide. These books were removed from Notebook 8.

NOTEBOOK 16

1. Replace the spine insert for Notebook 16 with the revised one included in this update.
2. Insert both the divider labeled FORTRAN Compatibility Manual and the manual of the same name (AA–Y868A–TK) immediately after the FORTRAN Installation Guide.

NEW BINDER (NOTEBOOK 20)

1. Insert the new spine for Notebook 20 and the binder cover insert into the new binder.
2. Insert the following manuals (and their associated dividers) in Notebook 20 in the order specified. These manuals and dividers are included in this update.

   TOPS–20 PASCAL Language Manual (AA–L315A–TM)
   TOPS–20 PASCAL Primer (AA–L314A–TM)
   TOPS–20 PASCAL Installation Guide (AA–N306A–TM)
   TOPS–10/20 Common Math Library Reference Manual (AA–M400A–TK)

NOTEBOOK 1

1. Replace the existing Master Table of Contents with the revised one included in this update.
2. Insert this update notice immediately after the divider labeled Update Notices.

KEEP THIS UPDATE NOTICE IN YOUR MANUAL TO MAINTAIN AN UP-TO-DATE RECORD OF CHANGES.

TYPE AND IDENTIFICATION OF DOCUMENTATION CHANGES.

Five types of changes are used to update documents contained in the TOPS-20 software manuals. Change symbols and notations are used to specify where, when, and why alterations were made to each update page. The five types of update changes and the manner in which each is identified are described in the following table.

The Following Symbols and/or Notations

1. Change bar in outside margin; version number and change date printed at bottom of page.

2. Change bar in outside margin; change date printed at bottom of page.

3. Change date printed at bottom of page.

4. Bullet (●) in outside margin; version number and change date printed at bottom of page.

5. Bullet (●) in outside margin; change date printed at bottom of page.

Identify the Following Types of Update Changes

1. Changes were required by a new version of the software being described.

2. Changes were required to either clarify or correct the existing material.

3. Changes were made for editorial purposes but use of the software is not affected.

4. Data was deleted to comply with a new version of the software being described.

5. Data was deleted to either clarify or correct the existing material.

UPDATE NOTICE

TOPS–20
SOFTWARE NOTEBOOKS
AD–J020A–18

August 1983

Contents of the Update

1. LINK–20 V5.1 Documentation

2. FTS–20 V1 Documentation

3. FORTRAN V7 Documentation

4. DIL Documentation

5. BLISS V3 Documentation

The instructions for inserting this update start on the following page.

REFERENCE CARDS AND GUIDES

This update includes the following new and revised reference cards and guides:

1. TOPS–10/20 FORTRAN Reference Card (AV–P529A–TK)
2. BLISS Pocket Guide (AV–H289C–TK)

NOTEBOOK 5

1. Using the Update Notice to the TOPS–20 LINK Reference Manual as a guide, replace the appropriate pages in the manual (AA–4183C–TM) with the ones included in this update.

NOTEBOOK 8

1. Replace the spine insert for Notebook 8 with the revised one included in this update.
2. Insert both the divider labeled FTS–20 Reference Manual and the manual of the same name (AA–M252A–TM) immediately before the TOPS–20 DECnet–20 Programmer's Guide and Operations Manual. Both of these are included in this update.

NOTEBOOK 16

1. Replace the spine insert for Notebook 16 with the revised one included in this update.
2. Replace the existing FORTRAN Language Manual with the revised one (AA–N383A–TK) included in this update.
3. Insert both the divider labeled FORTRAN Installation Guide and the manual of the same name (AA–P344A–TM) immediately after the FORTRAN Language Manual.

NOTEBOOK 18

1. Replace the spine insert for Notebook 18 with the revised one included in this update.
2. Insert both the divider labeled DIL User Reference Manual and the manual of the same name (AA–M581A–TK) immediately after the COBOL–74 Language Manual

NEW BINDER (NOTEBOOK 19)

1. Insert the new spine for Notebook 19 and the binder cover insert into the new binder.
2. Insert the following manuals (and their associated dividers) in Notebook 19 in the order specified. These manuals and dividers are included in this update.

   BLISS–36 User's Guide (AA–H712C–TK)
   BLISS Language Guide (AA–H275C–TK)
   BLISS–36 Compiler V3(160) Installation Notes (AA–J937C–TK)

NOTEBOOK 1

1. Replace the existing Master Table of Contents with the revised one included in this update.
2. Insert this update notice immediately after the divider labeled Update Notices.

KEEP THIS UPDATE NOTICE IN YOUR MANUAL TO MAINTAIN AN UP-TO-DATE RECORD OF CHANGES.

UPDATE NOTICE

TOPS-20
SOFTWARE NOTEBOOKS
AD-J020A-17

March 1983

Contents of the Update

1. New Binders

2. DECnet-20 V3 Documentation

3. TOPS-20 V4.1/V5.1 Documentation

4. TOPS-10/20 DECmail/MS V10 Documentation

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

This update includes 18 new 2½ inch binders in addition to new and changed TOPS–20 documentation. Do not proceed with this update if you have received an incorrect package.

With this update, you will be transferring the contents of the *old* binders to the *new* binders and updating manuals within the individual binders. When you transfer a manual, make sure you also transfer the associated divider and any updates to that manual. We will be directing you in converting and updating one binder before moving to another binder.

To be successful in revising your set, we encourage you to carefully read and follow the instructions as given. Revising your set will take a couple of hours and adequate table space to work with several binders at a time. Although executing the instructions is time consuming and slightly complicated, the result will be worth the time spent.

REFERENCE CARDS AND GUIDES

This update includes the following new and revised reference cards and guides:

1. TOPS–20 Commands Reference Card (AV–L704B–TM)
2. TOPS–10/20 OPR Commands Reference Card (AV–P380A–TK)
3. TOPS–20 Monitor Calls Quick Reference Guide (AV–P173A–TM)
4. TOPS–20 DSR Pocket Guide (AV–N390A–TK)

NOTEBOOK 1

1. Insert the new spine for Notebook 1 and a binder cover insert into a new binder.
2. Remove the following material and associated dividers from the *old Notebook 1* and place in the new binder in the order specified:

   Title Page/Copyright Page
   Master Table of Contents
   Update Notices
   DECSYSTEM–20 Technical Summary
   Getting Started with TOPS–20
   Getting Started with Batch
   TOPS–20 User's Guide

3. Discard Getting Started with RUNOFF. This manual is obsolete because of the DIGITAL Standard RUNOFF (DSR) documentation.
4. Remove and set aside the TOPS–20 EXEC Message Manual. This manual will be placed in Notebook 2.
5. Remove from Notebook 3 the TOPS–20 User Utilities Guide and place it after the TOPS–20 User's Guide.
6. Remove from Notebook 13 the TOPS–20AN User's Guide and place it after the TOPS–20 User Utilities Guide.
7. Using the Update Notice to the TOPS–20 User's Guide (AD–4179C–T2), replace the appropriate pages in the TOPS–20 User's Guide (AA–4179C–TM, AD–4179C–T1) with the ones included in this update.
8. Using the Update Notice to the TOPS–20 User Utilities Guide (AD–D850A–T2), replace the appropriate pages in the TOPS–20 User Utilities Guide (AA–D850A–TM, AD–D850A–T1) with the ones included in this update.

NOTEBOOK 2

1. Insert the new spine for Notebook 2 and a binder cover insert into a new binder.
2. Remove the entire contents of the *old Notebook 2* and place in the new binder.
3. Insert the TOPS–20 EXEC Message Manual (removed from Notebook 1) and place it after the TOPS–10/20 Batch Reference Manual.
4. Using the Update Notice to the TOPS–20 Commands Reference Manual (AD–5115B–T2), replace the appropriate pages in the Commands Reference Manual (AA–5115B–TM, AD–5115B–T1) with the ones included in this update.

NOTEBOOK 3

1. Insert the new spine for Notebook 3 and a binder cover insert into a new binder.
2. Remove the remaining contents of the *old Notebook 3* and place in the new binder.
3. Insert the following manuals (and their associated dividers) after the TOPS–20 TV Editor Manual in the order specified:

   Introduction to DIGITAL Standard RUNOFF (AA–N388A–TK)
   (including its update AD–N388A–T1)

   TOPS–20 DIGITAL Standard RUNOFF User's Guide (AA–N389A–TM)

   TOPS–10/20 DECmail/MS Manual (AA–M840A–TK)

   These manuals and dividers are included in this update.

NOTEBOOK 4

1. Insert the new spine for Notebook 4 and a binder cover insert into a new binder.
2. Remove the entire contents of the *old Notebook 4* and place in the new binder.

NOTEBOOK 5

1. Insert the new spine for Notebook 5 and a binder cover insert into a new binder.
2. Remove the entire contents of the *old Notebook 5* and place in the new binder.
3. Remove from Notebook 13 the TOPS–20AN Monitor Calls User's Guide and place it after the TOPS–20 Monitor Calls User's Guide.

NOTEBOOK 6

1. Insert the new spine for Notebook 6 and a binder cover insert into a new binder.
2. Remove the entire contents of *old Notebook 6* and place in the new binder.
3. Using the Update Notice to the TOPS–20 Monitor Calls Reference Manual (AD–4166E–T1), replace the appropriate pages in the TOPS–20 Monitor Calls Reference Manual (AA–4166E–TM) with the ones included in this update.

NOTEBOOK 7

1. Insert the new spine for Notebook 7 and a binder cover insert into a new binder.
2. Insert the following manuals (and their associated dividers) in the new binder in the order specified. These manuals and dividers are included in this update.

   TOPS–20 IBM Emulation/Termination (AA–5095C–TM)

   Introduction to DECnet (AA–J055C–TK)

   DECnet–20 User's Guide (AA–J679A–TM)

   DECnet–20 System Manager's and Operator's Guide (AA–J678A–TM)

   DECnet–20 Network Generation and Installation Guide (AA–K905A–TM)

NOTEBOOK 8

1. Insert the new spine for Notebook 8 and a binder cover insert into a new binder.
2. Remove the entire contents of Notebook *14* and insert into the new binder.

NOTEBOOK 9

1. Insert the new spine for Notebook 9 and a binder cover insert into a new binder.
2. Remove from Notebook *15* the following manuals and insert in the new binder in the order specified:

   TOPS–20 System Manager's Guide (AA–4169F–TM, AD–4169F–T1, AD–4169F–T2)

   TOPS–20 KL Model B Installation Guide (AA–M229A–TM)

3. Discard from Notebook *15* the TOPS–20 Software Installation Guide (AA–4195G–TM, AD–4195G–T1). This manual has been superseded by the KS/KL Model A Installation Guide.
4. Using the Update Notice to the TOPS–20 KL Model B Installation Guide (AD–M229A–T1), replace the appropriate pages in the KL Model B Installation Guide with the ones included in this update.
5. Insert the TOPS–20 KS/KL Model A Installation Guide (AA–P346A–TM) and its divider after the KL Model B Installation Guide. This manual and divider are included in this update.

NOTEBOOK 10

1. Insert the new spine for Notebook 10 and a binder cover insert into a new binder.
2. Remove the entire contents of Notebook *16* and insert in the new binder.
3. Using the Update Notice to the TOPS–20 Operator's Guide (AD–4176D–T3), replace the appropriate pages in the Operator's Guide with the ones included in this update.

NOTEBOOK 11

1. Insert the new spine for Notebook 11 and a binder cover insert into a new binder.
2. Remove the entire contents of Notebook *17* and insert in the new binder.
3. Using the Update Notice to the TOPS–20 Operator's Command Language Reference Manual (AD–H600A–T2), replace the appropriate pages in the Operator's Command Language Reference Manual (AA–H600A–TM, AD–H600A–T1) with the ones included in this update.
4. Using the Update Notice to the TOPS–10/20 USAGE File Specification (AD–4181B–T1), replace the appropriate pages in the USAGE File Specification with the ones included in this update.

NOTEBOOK 12

1. Insert the new spine for Notebook 12 and a binder cover insert into a new binder.
2. Remove the entire contents of Notebook *18* and insert in the new binder.

NOTEBOOK 13

1. Insert the new spine for Notebook 13 and a binder cover insert into a new binder.
2. Remove the entire contents of *old Notebook 11* and insert in the new binder.

NOTEBOOK 14

1. Insert the new spine for Notebook 14 and a binder cover insert into a new binder.
2. Remove the entire contents of *old Notebook 12* and insert into the new binder.
3. Remove TRAFFIC–20 Programmer's Manual (AA–H296A–TM) from the *old Notebook 13* and insert it after the PCS–10/20 Installation Guide.
4. Discard from the *old Notebook 13* the TOPS–20 IBM Emulation/Termination Manual (AA–5095B–TM). This manual has been superseded by the revised TOPS–20 IBM Emulation/Termination Manual.

NOTEBOOK 15

1. Insert the new spine for Notebook 15 and a binder cover insert into a new binder.
2. Remove the entire contents of *old Notebook 7* and insert into the new binder.

NOTEBOOK 16

1. Insert the new spine for Notebook 16 and a binder cover insert into a new binder.
2. Remove the entire contents of *old Notebook 8* and insert into the new binder.

NOTEBOOK 17

1. Insert the new spine for Notebook 17 and a binder cover insert into a new binder.
2. Remove the entire contents of *old Notebook 9* and insert into the new binder.

NOTEBOOK 18

1. Insert the new spine for Notebook 18 and a binder cover insert into a new binder.
2. Remove the entire contents of *old Notebook 10* and insert into the new binder.
3. Insert the TOPS–10/20 COBOL Conversion Utility Guide (AA–M586A–TK) and its associated divider before the TOPS–10/20 COBOL–74 Language Manual.

At this time, your old notebook binders should be empty. Also, all new and revised documentation included with this update should be inserted in the new binders. Take the revised Master Table of Contents included in this update and verify that your revised Notebook Set reflects the Table of Contents.

NOTEBOOK 1

1. Replace the existing Master Table of Contents with the revised one included in this update.
2. Insert this update notice immediately after the divider labeled Update Notices.

The Following Symbols and/or Notations

1. Change bar in outside margin; version number and change date printed at bottom of page.

2. Change bar in outside margin, change date printed at bottom of page.

3. Change date printed at the bottom of page.

4. Bullet (●) in outside margin; version number and change date printed at bottom of page.

5. Bullet (●) in outside margin; change date printed at bottom of page.

Identify the Following Types of Update

1. Changes were required by a new version of the software being described.

2. Changes were required for either the clarification or correction of existing material.

3. Changes were made for editorial purposes but use of the software is not affected.

4. Data was deleted in order to comply with a new version of the software being described.

5. Data was deleted to either clarify or correct the existing material.

UPDATE NOTICE

TOPS-20
SOFTWARE NOTEBOOKS
AD-J020A-16

September 1982

Contents of the Update

1. DECnet-20 V2.1 Documentation
2. TOPS-20 V5 Documentation
3. SPEAR V1 Documentation

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

You will be adding a new binder between the existing NOTEBOOK 13 and the existing NOTEBOOK 14. This will cause the notebook numbers (starting with NOTEBOOK 14) to be increased by one. The first instruction in this update will be to insert the new binder and to replace the appropriate spine inserts.

SPINE INSERTS AND BINDER

1. Replace the spine insert for Notebook 13 with the revised one included in this update.
2. Insert the new spine insert for Notebook 14 into the new binder. Both of these are included in this update.
3. Replace all subsequent spine inserts with the revised ones included in this update. Note that the numbers of the binders increase by one as you complete this step. Upon completion, your notebook set will contain 18 binders numbered 1 to 18.

REFERENCE CARD

1. This update includes the following new Reference Card:
   TOPS–10/20 SPEAR Reference Card (AV–M752A–TK)

NOTEBOOK 14

1. Remove from Notebook 13 the divider labeled DECnet–20 Manual and the manual of the same name (AA–5091B–TM) and insert both into Notebook 14.
2. Using the Update Notice to the TOPS–20 DECnet–20 Programmer's Guide and Operations Manual as a guide, replace the appropriate pages in the DECnet–20 manual (AA–5091B–TM) with the ones included in this update.
3. Remove from Notebook 15 the following:
   a. The divider labeled UETP Reference Manual and the manual of the same name.
   b. The divider labeled Autopatch Reference Manual and the manual of the same name.
   Insert these items into Notebook 14 after the DECnet–20 manual.

NOTEBOOK 15

1. Using the Update Notice to the TOPS–20 System Manager's Guide as a guide, replace the appropriate pages in the manual (AA–4169F–TM) with the ones included in this update.
2. Insert both the divider labeled TOPS–20 KL Model B Installation Guide and the manual of the same name (AA–M229A–TM) immediately after the TOPS–20 System Manager's Guide. Both of these are included in this update.

NOTEBOOK 16

1. Using the Update Notice to the TOPS–20 Operator's Guide as a guide, replace the appropriate pages in the manual (AA–4176D–TM) with the ones included in this update.

NOTEBOOK 17

1. Using the Update Notice to the TOPS–20 Operator's Command Language Reference Manual as a guide, replace the appropriate pages in the manual (AA–H600A–TM) with the ones included in this update.

September 1982

NOTEBOOK 18

1. Remove and discard the divider labeled SYSERR Manual and the manual of the same name. The SYSERR product has been replaced by the SPEAR product.
2. Insert the divider labeled SPEAR Manual and the manual of the same name (AA–J833A–TK) at the beginning of Notebook 18.
3. Immediately after the TOPS–20 BUGHLT Documentation, insert the following items:
   a. The divider labeled CHECKD Specification and the document of the same name.
   b. The divider labeled MAKVFU Specification and the document of the same name.
   These are included in this update.

NOTEBOOK 1

1. Replace the last two pages of the Master Table of Contents with the revised ones included in this update.
2. Insert this update notice immediately after the divider labeled Update Notices.

The Following Symbols and/or Notations

1. Change bar in outside margin; version number and change date printed at bottom of page.

2. Change bar in outside margin, change date printed at bottom of page.

3. Change date printed at the bottom of page.

4. Bullet (●) in outside margin; version number and change date printed at bottom of page.

5. Bullet (●) in outside margin; change date printed at bottom of page.

Identify the Following Types of Update

1. Changes were required by a new version of the software being described.

2. Changes were required for either the clarification or correction of existing material.

3. Changes were made for editorial purposes but use of the software is not affected.

4. Data was deleted in order to comply with a new version of the software being described.

5. Data was deleted to either clarify or correct the existing material.

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

You will be adding a new binder between the existing NOTEBOOK 10 and the existing NOTEBOOK 11. This will cause the notebook numbers (starting with NOTEBOOK 11) to be increased by one. The first instruction in this update will be to insert the new binder and to replace the appropriate spine inserts.

SPINE INSERTS AND BINDER

1. Replace the spine insert for Notebook 1 with the revised one included in this update.
2. Replace the spine insert for Notebook 3 with the revised one included in this update.
3. Replace the spine insert for Notebook 10 with the revised one included in this update.
4. Insert the new spine insert for Notebook 11 into the new binder. Both of these are included in this update.
5. Replace all subsequent spine inserts with the revised ones included in this update. Note that the numbers of the binders increase by one as you complete this step. Upon completion, your notebook set will contain 17 binders numbered 1 to 17.

NOTEBOOK 9

1. Replace the existing COBOL–68 Language Manual (and all of its updates) with the revised one (AA–5057B–TK) included in this update.

NOTEBOOK 10

1. Remove and set aside the following:

   a. The divider labeled DBMS Administrator's Manual and the manual of the same name.
   b. The divider labeled DBMS Programmer's Manual and the manual of the same name.

   These will be placed into Notebook 11.
2. Replace the existing COBOL–74 Language Manual (and its update) with the revised one (AA–5059B–TK) included in this update.

NOTEBOOK 11

1. Insert the following into Notebook 11:

   a. The divider labeled DBMS Administrator's Manual and the manual of the same name.
   b. The divider labeled DBMS Programmer's Manual and the manual of the same name.

   These were removed from Notebook 10.

NOTEBOOK 3

1. Remove from Notebook 1 both the divider labeled EDIT User's Guide and the manual of the same name and insert these immediately before the divider labeled EDIT Reference Manual.

NOTEBOOK 1

1. Insert both the divider labeled DECSYSTEM-20 Technical Summary and the manual of the same name (EA 20415 18) immediately before the divider labeled Getting Started With TOPS-20. Both of these are included in this update.
2. Replace the Master Table of Contents with the revised one included in this update.
3. Insert this update notice immediately after the divider labeled Update Notices.

The Following Symbols and/or Notations

1. Change bar in outside margin; version number and change date printed at bottom of page.

2. Change bar in outside margin, change date printed at bottom of page.

3. Change date printed at the bottom of page.

4. Bullet (●) in outside margin; version number and change date printed at bottom of page.

5. Bullet (●) in outside margin; change date printed at bottom of page.

Identify the Following Types of Update

1. Changes were required by a new version of the software being described.

2. Changes were required for either the clarification or correction of existing material.

3. Changes were made for editorial purposes but use of the software is not affected.

4. Data was deleted in order to comply with a new version of the software being described.

5. Data was deleted to either clarify or correct the existing material.

UPDATE NOTICE

TOPS-20
SOFTWARE NOTEBOOKS

AD–J020A–11

May 1981

Contents of the Update

1. TOPS–10/20 Autopatch Procedures Reference Manual
2. TOPS–20 EXEC Message Manual

The instructions for inserting this update start on the following page.

digital equipment corporation • marlboro, massachusetts

NOTEBOOK 13

1. Replace the spine insert for Notebook 13 with the revised one included in this update.
2. Insert both the divider labeled Autopatch Reference Manual and the manual of the same name (AA–H729A–TK) immediately after the UETP Reference Manual. Both of these are included in this update.

NOTEBOOK 1

1. Replace the spine insert for Notebook 1 with the revised one included in this update.
2. Insert both the divider labeled EXEC Message Manual and the manual of the same name (AA–J857A–TM) immediately after the Getting Started With RUNOFF manual. Both of these are included in this update.
3. Replace the Master Table of Contents with the revised one included in this update.
4. Insert this update notice immediately after the divider labeled Update Notices.

TYPE AND IDENTIFICATION OF DOCUMENTATION CHANGES

Five types of changes are used to update documents contained in the TOPS–20 Software Notebooks. Change symbols and notations are used to specify where, when, and why alterations were made to each updated page. The five types of update changes and the manner in which each is identified are described in the following table.

The Following Symbols and/or Notations	Identify the Following Types of Update
1. Change bar in outside margin; version number and change date printed at bottom of page.	1. Changes were required by a new version of the software being described.
2. Change bar in outside margin, change date printed at bottom of page.	2. Changes were required for either the clarification or correction of existing material.
3. Change date printed at the bottom of page.	3. Changes were made for editorial purposes but use of the software is not affected.
4. Bullet (●) in outside margin; version number and change date printed at bottom of page.	4. Data was deleted in order to comply with a new version of the software being described.
5. Bullet (●) in outside margin; change date printed at bottom of page.	5. Data was deleted to either clarify or correct the existing material.

UPDATE NOTICE

TOPS–20
SOFTWARE NOTEBOOKS
AD–J020A–10

January 1981

Contents of the Update

1. Updates for TOPS–20 V4 RP20 Extension
2. BUGHLT Documentation

The instructions for inserting this update start on the following page.

NOTEBOOK 6

1. Using the Update Notice to the TOPS–20 Monitor Calls Reference Manual as a guide, replace the appropriate pages in the Monitor Calls Reference Manual (AA–4166D–TM) with the ones included in this update.

NOTEBOOK 13

1. Using the Update Notice to the TOPS–20 System Manager's Guide as a guide, replace the appropriate pages in the System Manager's Guide (AA–4169F–TM) with the ones included in this update.
2. Using the Update Notice to the TOPS–20 Software Installation Guide as a guide, replace the appropriate pages in the Software Installation Guide (AA–4195G–TM) with the ones included in this update.

NOTEBOOK 14

1. Using the Update Notice to the TOPS–20 Operator's Guide as a guide, replace the appropriate pages in the Operator's Guide (AA–4176D–TM) with the ones included in this update.

NOTEBOOK 16

1. Replace the spine insert for Notebook 16 with the revised one included in this update.
2. Insert both the divider labeled BUGHLT Documentation and the document of the same name immediately after the TOPS–20 Monitor Table Descriptions.

NOTEBOOK 1

1. Replace the TOPS–20 Software Notebooks title page with the revised one included in this update.
2. Replace the Master Table of Contents with the revised one included in this update.
3. Insert this update notice immediately after the divider labeled Update Notices.

TYPE AND IDENTIFICATION OF DOCUMENTATION CHANGES

Five types of changes are used to update documents contained in the TOPS–20 Software Notebooks. Change symbols and notations are used to specify where, when, and why alterations were made to each updated page. The five types of update changes and the manner in which each is identified are described in the following table.

The Following Symbols and/or Notations	Identify the Following Types of Update
1. Change bar in outside margin; version number and change date printed at bottom of page.	1. Changes were required by a new version of the software being described.
2. Change bar in outside margin, change date printed at bottom of page.	2. Changes were required for either the clarification or correction of existing material.

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

Do not insert this update into your TOPS–20 Software Notebooks until you have inserted Update Notice AD–J020A–03.

NOTEBOOK 5

1. Remove and discard both the divider labeled MAKLIB User's Guide and the MAKLIB Functional Specification. This information has been incorporated into the TOPS–20 User Utilities Guide.
2. Remove from Notebook 6 the divider labeled Monitor Calls User's Guide and the manual of the same name (DEC–20–OMUGA–A–D). Insert these immediately after the LINK Reference Manual.

NOTEBOOK 6

1. Replace the existing Monitor Calls Reference Manual with the revised one (AA–4166D–TM) included in this update.

NOTEBOOK 7

1. Remove and discard both the divider labeled BASIC User's Guide and the manual of the same name.
2. Insert both the divider labeled BASIC + 2 Language Manual and the manual of the same name (AA–H654A–TK) immediately after the APLSF Language Manual. Both of these are included in this update.

NOTEBOOK 8

1. Remove and discard the BASIC + 2 User's Guide and the BASIC + 2 Reference Manual and the associated dividers. This information has been consolidated into the BASIC + 2 Language Manual.

NOTEBOOK 9

1. Using the Update Notice to the COBOL–68 Manual as a guide, replace the appropriate pages in the COBOL–68 Language Manual (AA–5057A–TK) with the ones included in this update.

NOTEBOOK 1

1. Insert this update notice immediately after the divider labeled Update Notices.

UPDATE NOTICE

TOPS–20
SOFTWARE NOTEBOOKS
AD–J020A–03

May 1980

Contents of the Update

1. *TOPS–20 Commands Reference Manual*

2. *TOPS–10/TOPS–20 Batch Reference Manual*

3. *TOPS–20 TV Editor Manual*

4. *TOPS–20 User Utilities Guide*

The instructions for inserting this update start on the following page.

READ FIRST BEFORE PROCEEDING

You will be adding a new binder between the existing NOTEBOOK 2 and the existing NOTEBOOK 3. This will cause all the notebook numbers starting with NOTEBOOK 3 to be increased by one. The first instruction in this update will be to insert the new binder and to replace the set of spine inserts, even though the updating of the contents of each binder will not be complete until you insert the Update Notice with the number AD–J020A–08.

It is important that you update your TOPS–20 Software Notebooks in the order governed by the number of the Update Notice; that is, insert Update Notice AD–J020A–03 before you insert Update Notice AD–J020A–04. The instructions in each update assume that you have inserted the updated spine inserts. We also recommend that you take the time to insert all updates at one sitting.

SPINE INSERTS

1. Replace the spine insert for Notebook 1 with the new one included in this update.
2. Replace the spine insert for Notebook 2 with the revised one included in this update.
3. Insert the new spine insert for Notebook 3 into the new binder. Both of these are included in this update.
4. Replace all subsequent spine inserts with the revised ones included in this update. Note that the numbers of the binders increase by one as you complete this step. Upon completion, your notebook set will contain 15 binders numbered 1 to 15.

NOTEBOOK 2

1. Replace the existing TOPS–20 Commands Reference Manual with the revised one (AA–5115B–TM) included in this update.
2. Remove and set aside both the divider labeled EDIT Reference Manual and the manual of the same name. These will be placed in Notebook 3.
3. Replace the existing Batch Reference Manual with the revised one (AA–H374A–TK) included in this update.

NOTEBOOK 3

1. Insert both the divider labeled EDIT Reference Manual and the manual of the same name (these were removed from Notebook 2) into Notebook 3.
2. Insert both the divider labeled TV Editor Manual and the manual of the same name (AA–H181A–TM) immediately after the EDIT Reference Manual. Both of these are included in this update.
3. Insert both the divider labeled User Utilities Guide and the manual of the same name (AA–D850A–TM) immediately after the TV Editor Manual. Both of these are included in this update.

NOTEBOOK 1

1. Insert this update notice immediately after the divider labeled Update Notices.
