

AlphaStation 600 Series Cache Module Hold-Down Bracket Field Service Notification

EK-AS800-IS. A01
January 1997

OVERVIEW

This notification contains important information regarding the AlphaStation 600 Series Cache SIMM Hold-down Bracket.

ACTION

On page 3-10 of the *AlphaStation 600 Series User Information Manual (EK-AS800-UI)*, please disregard the note that follows step 3.

DIGITAL recommends that the cache module hold-down bracket (item 5 in Figure 3-6) should not be removed from the memory tower.

IMPACT

The hold-down bracket should remain in place after shipment to provide added support for the cache modules while the AlphaStation 600 is in use.
